

## Cell Size Comparison Research

On Page 3 of your INB section, you will find a page that includes the following objects.

Use the hyperlinks on this page to find the average size of the items. If the link no longer works, please Google to find the information.

If the measurement is not already in Micrometers, please convert it.

[How big is a Micrometer?](#)

<b>Item</b>
<a href="#">Thickness of a leaf</a>
<a href="#">Atom of Silicon</a>
<a href="#">Width of 1 hair</a>
<a href="#">Piece of Sawdust</a>
<a href="#">Water molecule</a>
<a href="#">Cornstarch</a>
<a href="#">Bacteria</a>
<a href="#">Chromosome</a>
<a href="#">Point of a pin</a>
<a href="#">Grain of salt</a>
<a href="#">Protein molecule</a>
<a href="#">DNA</a>
<a href="#">Ant</a>
<a href="#">Sesame Seed</a>
<a href="#">Fruit fly</a>
<a href="#">“period” at the end of a sentence</a>
<a href="#">Frog Embryo</a>
<a href="#">Flea egg</a>
<a href="#">Speck of Cayenne pepper</a>
<a href="#">Dust mite</a>
<a href="#">Virus</a>
